---

### Overview

Kara Cobb earned her Bachelor's Degree in Communications from Rowan University, but her professional path took an unexpected and rewarding turn when she joined a multi-doctor veterinary hospital as a receptionist. Over the course of 14 years, she developed a deep understanding of the veterinary industry, which ultimately led her to a role as a Transaction Coordinator at a boutique law firm focused exclusively on veterinary practice sales. In that role, she managed the full lifecycle of private and corporate transactions—from engagement through closing—and quickly transitioned into a paralegal position supporting attorneys with a wide range of legal documents.

Kara's experience includes drafting and reviewing corporate governance materials, employment agreements, vendor contracts, and real estate documents. In 2023, she completed an ABA-accredited paralegal certificate program and now brings nearly seven years of legal experience to her new role supporting the Veterinary Law team at Mandelbaum Barrett PC.
